

Make your own BUNTING

Celebrate 75 years of VE Day

1. Print off the bunting template (as many as you need).
2. Colour the shapes using the colour key (red and blue).
3. Using scissors, carefully cut around the template.
4. Create 2 holes with a hole punch along the top edge of the template.
5. Slide the flags onto a length of string or ribbon (hint: once you have threaded a flag on, tie a knot behind each hole to keep the flag in place).

Now hang your bunting for all to see!
